As a citizen who rightfully demands protection of first amendment rights, and as one who has also paid for and deserves satellite broadcast services that include locally-oriented content, I request that the FCC do the right thing and reject the NAB's petition 04-160.

Please, do not allow these entirely self-interested bullies to push their way into a denial of my rights; otherwise, we who love and protect our constitution will have to go to take this up in court, and at a considerable expense for our government (that is, us ALL). Thank you for doing the right thing.

Sincerely,
Robert Lantis
Reston, VA
